## PREFATORY NOTE

**T**HIS fourth edition in English of the General Catalogue of Bowdoin College and the Medical School of Maine aims to give with greater fulness than its predecessors the residences and occupations of all who have received degrees from the institution and of all who have served as officers or teachers. Effort has been made to mention service in the army and the navy, in State legislatures and in Congress, election or appointment to political and judicial offices, and the holding of the presidency of State and national societies. Academic degrees are given with dates and the names of institutions conferring them. To avoid, however, the constant repetition of the word Bowdoin, it has been consistently omitted in places where it can be clearly understood, viz., in connection with degrees and professorships held in this institution.

In order to confine the subject matter of over sixty-seven hundred paragraphs to a reasonable number of pages, it has been necessary to use freely cross references and abbreviations. The latter are either so obvious or so customary in catalogues of this character that no list of them is printed. Much more regretted by the compiler was the necessity of omitting the record of many positions held by graduates which would illustrate the influence and esteem they have won in their respective communities. Here the temptation to deal fully with the living was also checked by inability to deal fairly with the dead in similar particulars.

It was found inexpedient to print post office addresses in this volume. They can now be obtained separately in the pamphlet issued in February 1912. It is hoped that revised editions of this address list will be issued in alternate years.

The academic alumni are arranged by the classes to which they belonged while undergraduates, although in some cases the bachelor's degree was not conferred till a later period. In a very few instances,

## PREFATORY NOTE

**T**HIS supplement to the General Catalogue of 1912 was planned and begun by Dr. George T. Little, who compiled the first list of non-graduates of the College for the centennial edition of the General Catalogue in 1894. Since then no catalogue has contained the non-graduates, and now for the first time an attempt has been made to include the former students of the Medical School who did not receive their degrees here. While Dr. Little lived to complete only the first ten pages of this catalogue he collected material that has been used on almost every page of the book. His preliminary work was invaluable. Many facts that he brought together two decades ago would have been impossible to find today.

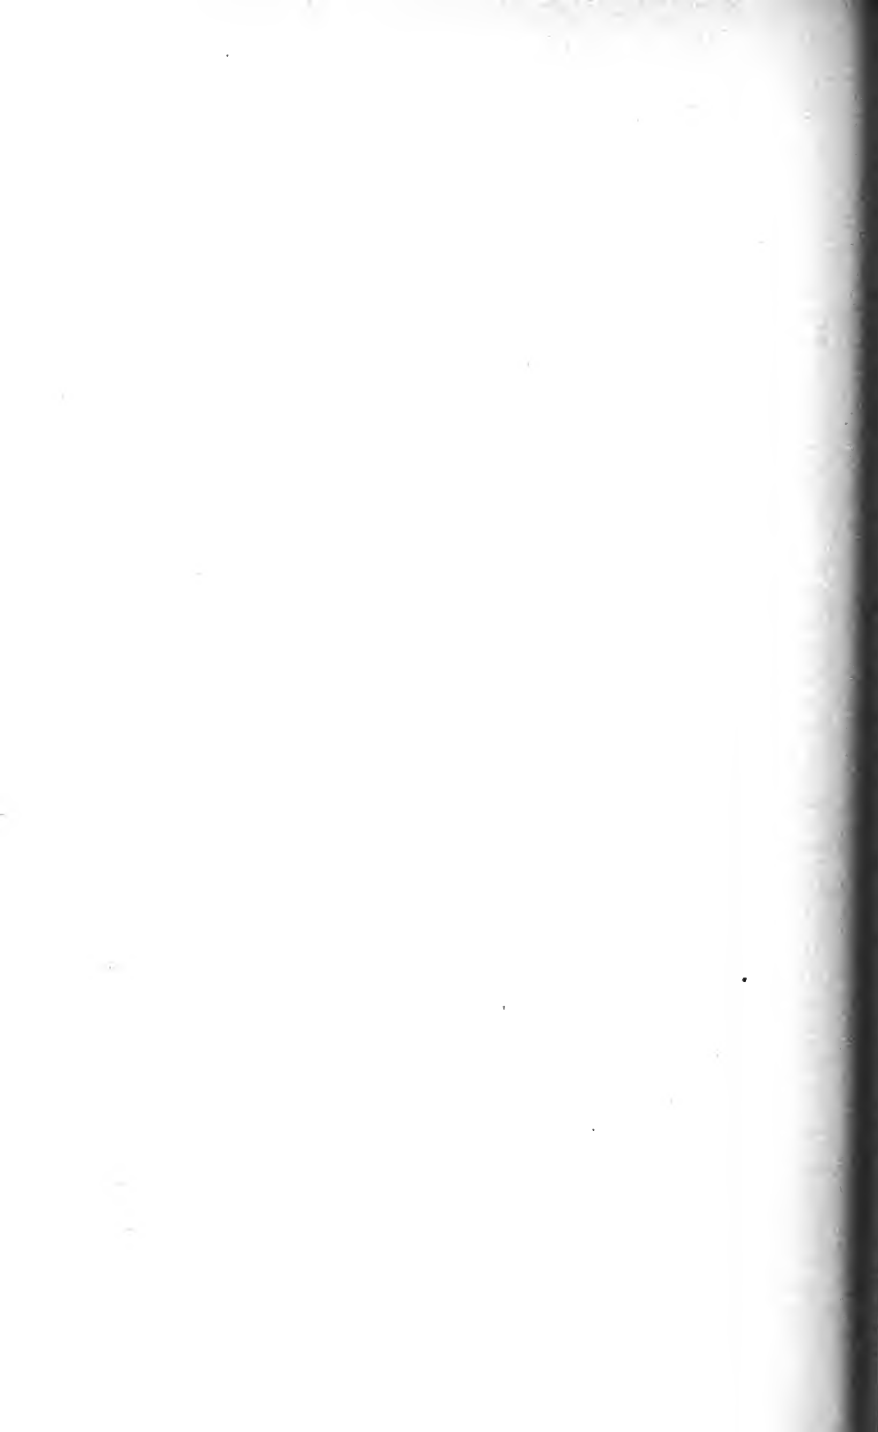

The catalogue is now given to the public with many records incomplete. It is hoped that all who can make additions to the facts herein recorded will do so, in order that the next edition may be as full as the record of graduates. As an afterthought the classes of 1913, 1914 and 1915 have been included, to bring the work down to date. Time has prevented making these entries as complete as the earlier ones, but it was thought best to print what was at hand.

The editor wishes to express his appreciation of the great assistance of two members of his staff in the preparation of these pages. He would also thank the hundreds of non-graduates and others who have so courteously given their time in replying to his letters, and without whose help little could have been done.

GERALD G. WILDER.
